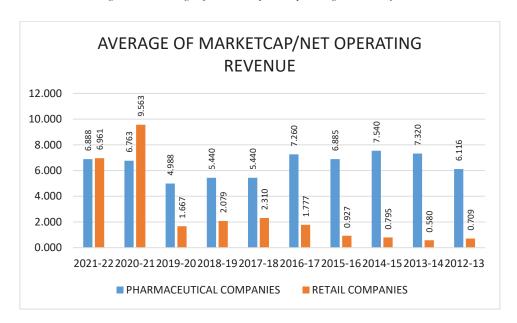

Figure 10: Average of MarketCap/Net Operating Revenue by Year

From the above average value of marketcap/net operating revenue table it can be concluded that in pharmaceutical companies, Sun Pharmaceutical Industries Ltd has highest average value of marketcap/net operating revenue with value 20.699. Alkem Laboratories Ltd has lowest average value of marketcap/net operating revenue with value 3.157.

In case of retail companies, Heads UP Ventures Ltd has highest average value of marketcap/net operating revenue with value 9.623. Future Enterprises Ltd has lowest average value of marketcap/net operating revenue with value 0.402.

On an average pharmaceutical companies have higher average value of marketcap/net operating revenue than selected retail companies.

From the above average of marketcap/net operating revenue table, it can be concluded that during the year 2021-22 retail companies have higher average of marketcap/net operating revenue. During the year 2020-21 retail companies have higher average of marketcap/net operating revenue. During the year 2019-20 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2018-19 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2017-18 pharmaceutical companies have higher average of

marketcap/net operating revenue. During the year 2016-17 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2015-16 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2014-15 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2013-14 pharmaceutical companies have higher average of marketcap/net operating revenue. During the year 2012-13 pharmaceutical companies have higher average of marketcap/net operating revenue.

H0 = There is no significant difference in MarketCap/Net Operating Revenue for selected Pharmaceutical Companies of India.

Fcal is 16.12 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in MarketCap/Net Operating Revenue for selected Pharmaceutical Companies of India.

Anova: Single Factor

**SUMMARY** 

| Groups                            | Count | Sum   | Average | Variance |

H0 = There is no significant difference in MarketCap/Net Operating Revenue for selected Retail Companies of India.

Fcal is 1.914 and Ftab is 1.986

Thus, Fcal>Ftab and p-value is more than specified  $\alpha$  of 0.05

So, null hypothesis is accepted and it is concluded that there is no significant difference in MarketCap/Net Operating Revenue for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                   | Pharmaceutical Companies | Retail Companies |
|-------------------|--------------------------|------------------|
| Mean              | 6.464                    | 2.7368           |
| Variance          | 0.8186                   | 9.21457          |
| Observations      | 10                       | 10               |
| "Pooled Variance" | 5.01658                  |                  |

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

| Hypothesized Mean Difference | 0       |  |
|------------------------------|---------|--|
| df                           | 18      |  |
| t Stat                       | 3.72103 |  |
| "P(T<=t) one-tail"           | 0.00078 |  |
| "t Critical one-tail"        | 1.73406 |  |
| "P(T<=t) two-tail"           | 0.00156 |  |
| "t Critical two-tail"        | 2.10092 |  |

H0: There is no significant difference in MarketCap/Net Operating Revenue between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.00156 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in MarketCap/Net Operating Revenue between selected Pharmaceutical and Retail Companies of India.

Figure 14: Average of Net Profit Margin (%) by Year

From the above average value of net profit margin (%) table it can be concluded that in pharmaceutical companies, Divis Laboratories Ltd has highest average value of net profit margin (%) with value 28.148. Sun Pharmaceutical Industries Ltd has lowest average value of net profit margin (%) with value -5.852.

In case of retail companies, Trent Ltd has highest average value of net profit margin (%) with value 4.92. Heads UP Ventures Ltd has lowest average value of net profit margin (%) with value -117.286.

On an average pharmaceutical companies have higher average value of net profit margin (%) than selected retail companies.

From the above average of net profit margin (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of net profit margin (%). During the year 2020-21 pharmaceutical companies have higher average of net profit margin (%). During the year 2019-20 pharmaceutical companies have higher average of net profit margin (%). During the year 2018-19 pharmaceutical companies have higher average of net profit margin (%). During the year 2017-18 pharmaceutical companies have higher average of net profit margin (%). During the year 2016-17 pharmaceutical companies have higher average of net profit margin (%). During the year 2015-16 pharmaceutical companies have higher average of net profit margin (%).

During the year 2014-15 pharmaceutical companies have higher average of net profit margin (%). During the year 2013-14 pharmaceutical companies have higher average of net profit margin (%). During the year 2012-13 pharmaceutical companies have higher average of net profit margin (%).

H0 = There is no significant difference in Net Profit Margin (%) for selected Retail Companies of India.

Fcal is 2.147 and Ftab is 1.986

So, null hypothesis is rejected and it is concluded that there is significant difference in Net Profit Margin (%) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|              | Pharmaceutical Companies | Retail Companies |
|--------------|--------------------------|------------------|
| Mean         | 15.2321                  | -13.225          |
| Variance     | 10.3189                  | 991.015          |
| Observations | 10                       | 10               |

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

<sup>&</sup>quot;Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

| "Pooled Variance"            | 500.667 |  |
|------------------------------|---------|--|
| Hypothesized Mean Difference | 0       |  |
| df                           | 18      |  |
| t Stat                       | 2.84381 |  |
| "P(T<=t) one-tail"           | 0.00539 |  |
| "t Critical one-tail"        | 1.73406 |  |
| "P(T<=t) two-tail"           | 0.01077 |  |
| "t Critical two-tail"        | 2.10092 |  |

H0: There is no significant difference in Net Profit Margin (%) between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.01077 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in Net Profit Margin (%) between selected Pharmaceutical and Retail Companies of India.

Figure 18: Average of Net Profit/Share (Rs.) by Year

From the above average value of net profit/share (Rs.) table it can be concluded that in pharmaceutical companies, Abbott India Ltd has highest average value of net profit/share (Rs.) with value 190.022. Sun Pharmaceutical Industries Ltd has lowest average value of net profit/share (Rs.) with value 0.62.

In case of retail companies, V-Mart Retail Ltd has highest average value of net profit/share (Rs.) with value 19.122. Aditya Birla Fashion & Retail Ltd has lowest average value of net profit/share (Rs.) with value -6.341.

On an average pharmaceutical companies have higher average value of net profit/share (Rs.) than selected retail companies.

From the above average of net profit/share (Rs.) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2020-21 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2019-20 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2018-19 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2017-18 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2016-17 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2015-16 pharmaceutical companies have higher average of net profit/share (Rs.).

During the year 2014-15 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2013-14 pharmaceutical companies have higher average of net profit/share (Rs.). During the year 2012-13 pharmaceutical companies have higher average of net profit/share (Rs.).

H0 = There is no significant difference in Net Profit/Share (Rs.) for selected Retail Companies of India.

Fcal is 6.243 and Ftab is 1.986

So, null hypothesis is rejected and it is concluded that there is significant difference in Net Profit/Share (Rs.) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                   | Pharmaceutical Companies | Retail Companies |
|-------------------|--------------------------|------------------|
| Mean              | 65.6628                  | 3.87437          |
| Variance          | 275.692                  | 15.1803          |
| Observations      | 10                       | 10               |
| "Pooled Variance" | 145.436                  |                  |

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

<sup>&</sup>quot;Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

| Hypothesized Mean Difference | 0       |  |
|------------------------------|---------|--|
| df                           | 18      |  |
| t Stat                       | 11.4566 |  |
| "P(T<=t) one-tail"           | 5.3E-10 |  |
| "t Critical one-tail"        | 1.73406 |  |
| "P(T<=t) two-tail"           | 1.1E-09 |  |
| "t Critical two-tail"        | 2.10092 |  |

H0: There is no significant difference in Net Profit/Share (Rs.) between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 1.1E-09 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in Net Profit/Share (Rs.) between selected Pharmaceutical and Retail Companies of India.

Figure 22 : Average of PBDIT Margin (%) by Year

From the above average value of PBDIT margin (%) table it can be concluded that in pharmaceutical companies, Divis Laboratories Ltd has highest average value of PBDIT margin (%) with value 40.337. Sun Pharmaceutical Industries Ltd has lowest average value of PBDIT margin (%) with value 17.685.

In case of retail companies, Future Enterprises Ltd has highest average value of PBDIT margin (%) with value 17.607. Heads UP Ventures Ltd has lowest average value of PBDIT margin (%) with value -100.645.

On an average pharmaceutical companies have higher average value of PBDIT margin (%) than selected retail companies.

From the above average of PBDIT margin (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2020-21 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2019-20 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2018-19 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2017-18 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2016-17 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2015-16 pharmaceutical companies have higher average of PBDIT margin (%). During the year

2014-15 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2013-14 pharmaceutical companies have higher average of PBDIT margin (%). During the year 2012-13 pharmaceutical companies have higher average of PBDIT margin (%).

Anova: Single Factor

#### **SUMMARY**

H0 = There is no significant difference in PBDIT Margin (%) for selected Retail Companies of India.

Fcal is 2.338 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in PBDIT Margin (%) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                              | Pharmaceutical Companies | Retail Companies |
|------------------------------|--------------------------|------------------|
| Mean                         | 26.6127                  | -0.1774          |
| Variance                     | 3.6696                   | 454.63           |
| Observations                 | 10                       | 10               |
| "Pooled Variance"            | 229.15                   |                  |
| Hypothesized Mean Difference | 0                        |                  |

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

| df                    | 18      |  |
|-----------------------|---------|--|
| t Stat                | 3.95731 |  |
| "P(T<=t) one-tail"    | 0.00046 |  |
| "t Critical one-tail" | 1.73406 |  |
| "P(T<=t) two-tail"    | 0.00092 |  |
| "t Critical two-tail" | 2.10092 |  |

H0: There is no significant difference in PBDIT Margin between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.00092 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in PBDIT Margin between selected Pharmaceutical and Retail Companies of India.

Figure 26: Average of PBIT Margin (%) by Year

From the above average value of PBIT margin (%) table it can be concluded that in pharmaceutical companies, Divis Laboratories Ltd has highest average value of PBIT margin (%) with value 36.753. Sun Pharmaceutical Industries Ltd has lowest average value of PBIT margin (%) with value 12.139.

In case of retail companies, Trent Ltd has highest average value of PBIT margin (%) with value 9.707. Heads UP Ventures Ltd has lowest average value of PBIT margin (%) with value -103.857.

On an average pharmaceutical companies have higher average value of PBIT margin (%) than selected retail companies.

From the above average of PBIT margin (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of PBIT margin (%). During the year 2020-21 pharmaceutical companies have higher average of PBIT margin (%). During the year 2019-20 pharmaceutical companies have higher average of PBIT margin (%). During the year 2018-19 pharmaceutical companies have higher average of PBIT margin (%). During the year 2017-18 pharmaceutical companies have higher average of PBIT margin (%). During the year 2016-17 pharmaceutical companies have higher average of PBIT margin (%). During the year 2015-16 pharmaceutical companies have higher average of PBIT margin (%). During the year

2014-15 pharmaceutical companies have higher average of PBIT margin (%). During the year 2013-14 pharmaceutical companies have higher average of PBIT margin (%). During the year 2012-13 pharmaceutical companies have higher average of PBIT margin (%).

Anova: Single Factor

SUMMARY

| Groups                            | Count | Sum    | Average | Variance |
|-----------------------------------|-------|--------|---------|----------|

| Zydus Lifesciences Ltd            | 10    | 258.14 | 25.814  | 30.73829 |

ANOVA

| Source of Variation | SS       | df | MS       | F        | P-value  | F crit   |
|---------------------|----------|----|----------|----------|----------|----------|
| "Between Groups"    | 4013.848 | 9  | 445.9831 | 8.262688 | 7.23E-09 | 1.985595 |

| "Within Groups" | 4857.799 | 90 | 53.97555 |  |
|-----------------|----------|----|----------|--|
|                 |          |    |          |  |
| Total           | 8871.647 | 99 |          |  |

H0 = There is no significant difference in PBIT Margin (%) for selected Pharmaceutical Companies of India.

"From above table for 9 and 90 degree of freedom"

Fcal is 8.263 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in PBIT Margin (%) for selected Pharmaceutical Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                              | Pharmaceutical Companies | Retail Companies |
|------------------------------|--------------------------|------------------|
| Mean                         | 22.5397                  | -5.8831          |
| Variance                     | 4.02411                  | 647.33           |

| "Pooled Variance"            | 325.677                  |                  |
| Hypothesized Mean Difference | 0                        |                  |
| df                           | 18                       |                  |
| t Stat                       | 3.52175                  |                  |
| "P(T<=t) one-tail"           | 0.00122                  |                  |
| "t Critical one-tail"        | 1.73406                  |                  |
| "P(T<=t) two-tail"           | 0.00244                  |                  |

H0: There is no significant difference in PBIT Margin between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.00244 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in PBIT Margin between selected Pharmaceutical and Retail Companies of India.

Figure 30 : Average of PBT Margin (%) by Year

From the above average value of PBT margin (%) table it can be concluded that in pharmaceutical companies, Divis Laboratories Ltd has highest average value of PBT margin (%) with value 36.696. Sun Pharmaceutical Industries Ltd has lowest average value of PBT margin (%) with value -5.062.

In case of retail companies, Trent Ltd has highest average value of PBT margin (%) with value 6.689. Heads UP Ventures Ltd has lowest average value of PBT margin (%) with value -114.905.

On an average pharmaceutical companies have higher average value of PBT margin (%) than selected retail companies.

From the above average of PBT margin (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of PBT margin (%). During the year 2020-21 pharmaceutical companies have higher average of PBT margin (%). During the year 2019-20 pharmaceutical companies have higher average of PBT margin (%). During the year 2018-19 pharmaceutical companies have higher average of PBT margin (%). During the year 2017-18 pharmaceutical companies have higher average of PBT margin (%). During the year 2016-17 pharmaceutical companies have higher average of PBT margin (%). During the year 2015-16 pharmaceutical companies have higher average of PBT margin (%). During the year 2014-15 pharmaceutical companies have higher average of PBT margin (%). During the year 2013-14 pharmaceutical companies have higher average of PBT margin (%). During the year 2012-13 pharmaceutical companies have higher average of PBT margin (%). During the year 2012-13 pharmaceutical companies have higher average of PBT margin (%).

H0 = There is no significant difference in PBT Margin (%) for selected Pharmaceutical Companies of India.

Fcal is 6.19 and Ftab is 1.986

So, null hypothesis is rejected and it is concluded that there is significant difference in PBT Margin (%) for selected Pharmaceutical Companies of India.

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

<sup>&</sup>quot;Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

| Total                                   | 730881.4 | 99           |          |          |          |          |

H0 = There is no significant difference in PBT Margin (%) for selected Retail Companies of India.

"From above table for 9 and 90 degree of freedom"

Fcal is 2.089 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in PBT Margin (%) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                              | Pharmaceutical Companies | Retail Companies |
|------------------------------|--------------------------|------------------|
| Mean                         | 19.464                   | -12.249          |
| Variance                     | 10.3794                  | 1023.06          |
| Observations                 | 10                       | 10               |
| "Pooled Variance"            | 516.72                   |                  |
| Hypothesized Mean Difference | 0                        |                  |
| df                           | 18                       |                  |
| t Stat                       | 3.11955                  |                  |
| "P(T<=t) one-tail"           | 0.00296                  |                  |
| "t Critical one-tail"        | 1.73406                  |                  |
| "P(T<=t) two-tail"           | 0.00592                  |                  |
| "t Critical two-tail"        | 2.10092                  |                  |

H0: There is no significant difference in PBT Margin between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.00592 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in PBT Margin between selected Pharmaceutical and Retail Companies of India.

| 2017-18 | 8.429                    | 6.561            |
| 2016-17 | 10.721                   | 5.604            |
| 2015-16 | 14.606                   | 4.389            |
| 2014-15 | 12.211                   | 4.112            |
| 2013-14 | 12.456                   | -1.820           |
| 2012-13 | 12.635                   | -9.012           |

Figure 34: Average of Return on Assets (%) by Year

From the above average value of return on assets (%) table it can be concluded that in pharmaceutical companies, Divis Laboratories Ltd has highest average value of return on assets (%) with value 18.379. Sun Pharmaceutical Industries Ltd has lowest average value of return on assets (%) with value -0.539.

In case of retail companies, Avenue Supermarts Ltd has highest average value of return on assets (%) with value 10.025. Heads UP Ventures Ltd has lowest average value of return on assets (%) with value -13.67.

On an average pharmaceutical companies have higher average value of return on assets (%) than selected retail companies.

From the above average of return on assets (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of return on assets (%). During the year 2020-21 pharmaceutical companies have higher average of return on assets (%). During the year 2019-20 pharmaceutical companies have higher average of return on assets (%). During the year 2018-19 pharmaceutical companies have higher average of return on assets (%). During the year 2017-18 pharmaceutical companies have higher average of return on assets (%). During the year 2016-17 pharmaceutical companies have higher average of return on assets (%). During the year 2015-16 pharmaceutical companies have higher average of return on assets (%). During the year 2014-15 pharmaceutical companies have higher average of return on assets (%). During the year 2013-14 pharmaceutical companies have higher average of return on assets (%). During the year 2012-13 pharmaceutical companies have higher average of return on assets (%). During the year 2012-13 pharmaceutical companies have higher average of return on assets (%).

H0 = There is no significant difference in Return on Assets (%) for selected Pharmaceutical Companies of India.

Fcal is 9.897 and Ftab is 1.986

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

<sup>&</sup>quot;Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in Return on Assets (%) for selected Pharmaceutical Companies of India.

| "Within Groups"                         | 12612.69 | 90     | 140.141 |          |          |          |

H0 = There is no significant difference in Return on Assets (%) for selected Retail Companies of India.

"From above table for 9 and 90 degree of freedom"

Fcal is 3.096 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in Return on Assets (%) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                              | Pharmaceutical Companies | Retail Companies |
|------------------------------|--------------------------|------------------|
| Mean                         | 11.2334                  | 0.8104           |
| Variance                     | 3.48625                  | 25.9522          |
| Observations                 | 10                       | 10               |
| "Pooled Variance"            | 14.7192                  |                  |
| Hypothesized Mean Difference | 0                        |                  |
| df                           | 18                       |                  |
| t Stat                       | 6.07485                  |                  |
| "P(T<=t) one-tail"           | 4.8E-06                  |                  |
| "t Critical one-tail"        | 1.73406                  |                  |
| "P(T<=t) two-tail"           | 9.7E-06                  |                  |
| "t Critical two-tail"        | 2.10092                  |                  |

H0: There is no significant difference in Return on Assets (%) between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 9.7E-06 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in Return on Assets (%) between selected Pharmaceutical and Retail Companies of India.

| 2014-15 | 16.423                         | 10.134           |  |  |  |  |  |  |
| 2013-14 | 16.516                         | 4.769            |  |  |  |  |  |  |
| 2012-13 | 17.556                         | -19.661          |  |  |  |  |  |  |

Figure 38: Average of Return on Capital Employed (%) by Year

From the above average value of return on capital employed (%) table it can be concluded that in pharmaceutical companies, Abbott India Ltd has highest average value of return on capital employed (%) with value 26.532. Sun Pharmaceutical Industries Ltd has lowest average value of return on capital employed (%) with value 1.616.

In case of retail companies, Bella Casa Fashion & Retail Ltd has highest average value of return on capital employed (%) with value 21.943. Future Enterprises Ltd has lowest average value of return on capital employed (%) with value -18.437.

On an average pharmaceutical companies have higher average value of return on capital employed (%) than selected retail companies.

From the above average of return on capital employed (%) table, it can be concluded that during the year 2021-22 pharmaceutical companies have higher average of return on capital employed (%). During the year 2020-21 pharmaceutical companies have higher average of return on capital employed (%). During the year 2019-20 pharmaceutical companies have higher average of return on capital employed (%). During the year 2018-19 pharmaceutical companies have higher average of return on capital employed (%). During the year 2017-18 retail companies have higher average of return on capital employed (%). During the year 2016-17 retail companies have higher average of return on capital employed (%). During the year 2015-16 pharmaceutical companies have higher average of return on capital employed (%). During the year 2014-15 pharmaceutical companies have higher average of return on capital employed (%). During the year 2013-14 pharmaceutical companies have higher average of return on capital employed (%). During the year 2012-13 pharmaceutical companies have higher average of return on capital employed (%).

| Total                                | 8331.333 | 99     |          |          |          |          |

H0 = There is no significant difference in Return on Capital Employed (%) for selected Pharmaceutical Companies of India.

Fcal is 10.416 and Ftab is 1.986

<sup>&</sup>quot;From above table for 9 and 90 degree of freedom"

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is rejected and it is concluded that there is significant difference in Return on Capital Employed (%) for selected Pharmaceutical Companies of India.

| Total           | 123728.5 | 99 |          |

H0 = There is no significant difference in Return on Capital Employed (%) for selected Retail Companies of India.

"From above table for 9 and 90 degree of freedom"

Fcal is 1.615 and Ftab is 1.986

"Thus, Fcal>Ftab and p-value is smaller than specified  $\alpha$  of 0.05"

So, null hypothesis is accepted and it is concluded that there is no significant difference in Return on Capital Employed (%) for selected Retail Companies of India.

"t-Test: Two-Sample Assuming Equal Variances"

|                              | Pharmaceutical Companies | Retail Companies |
|------------------------------|--------------------------|------------------|
| Mean                         | 17.2947                  | 5.204            |
| Variance                     | 2.86866                  | 169.008          |
| Observations                 | 10                       | 10               |
| "Pooled Variance"            | 85.9384                  |                  |
| Hypothesized Mean Difference | 0                        |                  |
| df                           | 18                       |                  |
| t Stat                       | 2.91637                  |                  |
| "P(T<=t) one-tail"           | 0.00461                  |                  |
| "t Critical one-tail"        | 1.73406                  |                  |
| "P(T<=t) two-tail"           | 0.00921                  |                  |
| "t Critical two-tail"        | 2.10092                  |                  |

H0: There is no significant difference in Return on Capital Employed (%) between selected Pharmaceutical and Retail Companies of India.

From the above table it can be seen that P value (Two Tail) is 0.00921 which is smaller than significance value 0.05 (P value < 0.05) which means,

Null Hypothesis (H0) is rejected and it concludes that there is significant difference in Return on Capital Employed (%) between selected Pharmaceutical and Retail Companies of India.
