

**ATMIYA
UNIVERSITY**

**Study of Molecular Markers in Cervical Cancer and
its Clinical Applications**

A
Thesis
submitted
to the Atmiya University

For the degree
of
Doctor of Philosophy
in
Microbiology

By
Riya Mashru
Enrolment No. [190682003]

Under the guidance of
Dr. Debashis Banerjee
Department of Biotechnology

ATMIYA UNIVERSITY
Yogidham Gurukul, Kalawad road,
Rajkot (360005), Gujarat, India

DECEMBER 2023

Study of Molecular Markers in Cervical Cancer and its Clinical Applications

DECLARATION BY THE CANDIDATE

I declare that thesis entitled “*Study of Molecular Markers of Cervical Cancer and its Clinical Applications*” is my own work conducted under the supervision of **Dr. Debashis Banerjee** at Department of **Microbiology, Faculty of Science, Atmiya University, Rajkot, Gujarat, India** and approved by the Director of Research.

I further declare that to the best of my knowledge the thesis does not contain any part of any work which has been submitted for award of any degree either in this University or any other University without proper citation.

Date:

17/10/202

3 Place:

Rajkot

Signature of Candidate

[Riya Mashru]

Study of Molecular Markers in Cervical Cancer and its Clinical Applications

CERTIFICATE OF SUPERVISOR

This is to certify that work entitled “*Study of Molecular Markers of Cervical Cancer and its Clinical Applications*” is a piece of research work done by **Riya Mashru** under my supervision for the degree of Doctor of Philosophy in Department of Microbiology, Faculty of Science, Atmiya University, Rajkot, Gujarat, India

To the best of my knowledge and belief the research work and thesis

- I. Embodies the work of candidate himself / herself,
- II. Has duly been completed,
- III. Fulfils the requirement of ordinance related to Ph.D. degree of the University &
- IV. is up to the standard both in respect of content and language for being referred to the examiner.

Date:

Place:

Signature of the Research Supervisor

Study of Molecular Markers in Cervical Cancer and its Clinical Applications

Thesis Approval Form

The Viva-Voce of the Ph.D. thesis entitled “*Study of Molecular Markers of Cervical Cancer and its Clinical Applications*” submitted by **Riya Mashru (190682003)** was conducted on **24/12/2023 (Saturday)** at Atmiya University, Rajkot, Gujarat

Based on the Performance of the Candidate, We, the panel of examiners, recommend that
(Please tick any of the following)

1. He / She be awarded Ph.D. Degree
2. The following modifications are to be incorporated in the thesis within one month and viva-voce be re-conducted by the same panel of examiners

Please Suggested Modification

3. He / She should not be awarded Ph.D. Degree

Please mention Reason for Rejection

Date:

Place:

Signature of Research Supervisor

Signature of External Examiner

Name of Research Supervisor

Name of External Examiner

Declaration by Research Scholar for submission of thesis

I declare that the submitted thesis entitled “*Study of Molecular Markers of Cervical Cancer and its Clinical Applications*” submitted by me incorporates,

1. All the suggestions /directions/modifications/additions/deletions received from the supervisors and the external examiners through their thesis evaluation reports.
2. All the suggestions /directions/modifications/additions/deletions received from the panel of examiners during the public viva-voce (Open Defense) conducted on Dt. 23/12/2023.

Date:

Place: Rajkot

Signature of Research Scholar

ACKNOWLEDGEMENT

I would like to acknowledge SHOADH scholarship for their financial support and also like to thank Multi-Disciplinary Research Unit at Shri M. P. Shah Government Medical College, Jamnagar for their Valuable cooperation.

I would take this opportunity to thank my PhD supervisor, Dr. Debashish Banerjee. His support and guidance throughout the PhD work was invaluable. I would also like to thank Dr. Ashish Kothari sir, Deputy Register of Atmiya University, who helped me to get this stage. I am really thankful to Dr. Minaxi Parmar, my former supervisor who always provided guidance and inspiration whenever I needed.

My humble gratitude to Dr. Dhaval Parmar, Scientist C at MDRU, who helped me in each and every step during my research work. He also helped me in publications. His valuable guidance helped me to complete my PhD work.

I would love to thank my family, my parents; they not just supported but believed in my dream. I always and eternally thankful to them for always trusting me. I am elated to thank My brother Dhruvil, who always helped me in editing and merging my thesis. Words fall short for my husband Samip who always supported me in each and every possible way and also bearing with my stress level throughout my work period.

I am grateful to everyone I've collaborated externally, G. T. Sheth Cancer Hospital, Dr. Radhika Javiya, Head of Kundariya Foundation, Dr Kirit Patel sir, Sanjeevani (Metropolis), Dr. Vijay Popat sir, Dean of Faculty Saurashtra University (HoD of Pathology Department of shree M. P. Shah Government Medical College, Jamnagar)

At last, I would like to thank all my friends from Atmiya University, Deep, Binal, Shivani, Jay, and friends from MDRU Dr. Pruthvi Gohel, Kishan, Ekta, & Meera.

I am thankful to almighty God for giving me this opportunity and surrounded me with great people.

Riya Mashru

AIM AND OBJECTIVES

AIM

- Molecular markers and their comparison for early detection of cervical cancer.

OBJECTIVES

- To study the socio-demography for better understanding of prevalence and progression of cervical cancer among mass.
- To assess the role of AgNORs as a cell proliferation marker.
- To study combinations of different markers relevant to cervical cancer.
- To evaluate significance of p53/Ki67 from cervical smear sample.
- To propose economical and practical approach for cervical cancer screening test from smear sample using combination of different techniques i.e., AgNOR, p53/Ki67, HPV by PCR.
