3.4 The scope of study & types	107
3.4.1 Geographic scope	108
3.4.2 Functional scope	108
3.5 Research design	108
3.6 Survey method	109
3.7 Population	110
3.8 Sampling Design	110
3.8.1 Sampling and sample collection	110
3.8.2 Sampling frame	111
3.8.3 Sampling method	111
3.8.4 Sample size	112
3.9 Data Collection Method	114
3.9.1 Data collection	114

3.9.2 Design and Development of Questionnaire	115
3.9.3 Data processing method	115
3.9.4 Statistical Tools and Hypothesis Testing Methods	121
3.10 Period of study	125
Chapter : 4 DATA ANALYSIS & INTERPRETATION	127
4.0 Introduction	129
4.1 Section A	129
Demographic profile of respondents and its Interpretation	
4.2 Section B	136
Research area	
4.3 Descriptive Statistics-(Chi-Square test, t-test, ANOVA and factor analysis)	140
4.4 Testing and Hypothesis development with interpretation	144
4.4.1 Chi-Square test	144
H1: There is a significant association between the frequency of online transactions and demographic variables.	144
H2: There is a significant association between buying preferences and demographic variables.	152
H3: There is a significant association between trust in online shopping and demographic variables.	153
